

Activating Your License

Locate the Administrator Tool on your desktop :

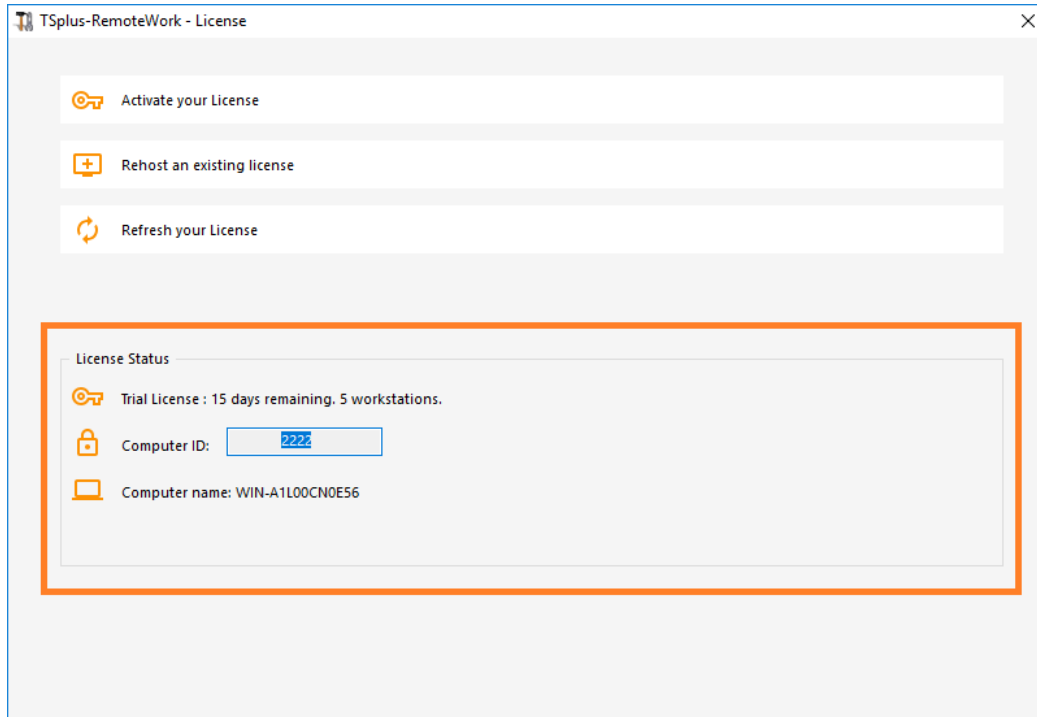

- If you cannot find the admin tool shortcut, it should be located in the desktop folder on the administrator account used to download TSplus Remote Work. You can also find the TSplus Remote Work folder on this path: 'C:\Program Files (x86)\TSplus-RemoteWork\UserDesktop\files'.

Double-click on it, then click on the license tab:

Here you can see the status of your TSplus Remote Work license, as well as your Computer ID and Computer Name:

TSplus-RemoteWork - License

License Status

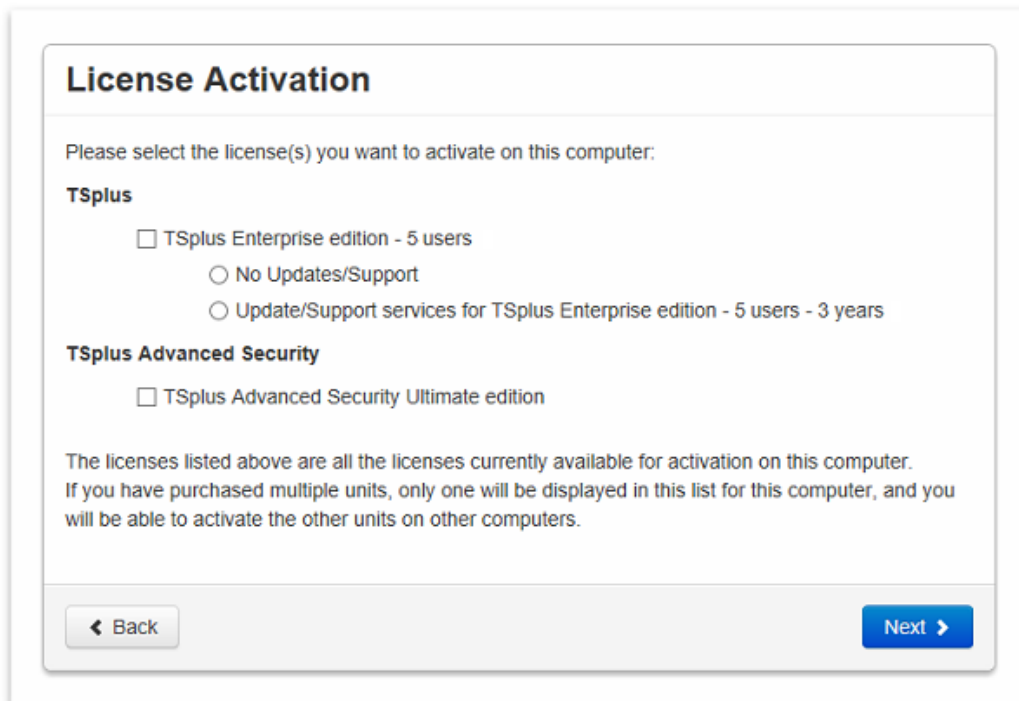

Trial License : 15 days remaining, 5 workstations.

Computer ID:

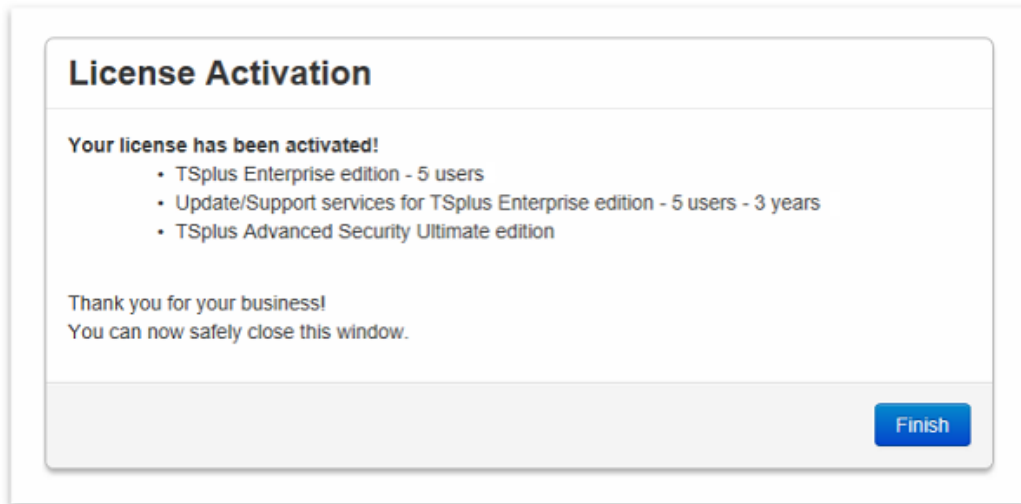

Computer name: WIN-A1L00CN0E56

You will get a list of all the available licenses/supports assigned to this activation key, i.e. all licenses/supports not activated yet:

Check one or more items and click on the “Next” button. Please note that you can activate several products at the same time by checking several products/support!

All your products/support are now activated (in this example, both TSplus with support and TSplus Advanced Security have been activated at once).

Refresh your License Data by clicking on the corresponding button at the bottom of the page, it will synchronize information with our Licensing Portal:

N.B: You can still download license.lic files on the Licensing Portal for TSplus Legacy Versions. [Download the Customer Portal User Guide](#) for more information about how to use it:

License Activation

If you are using a recent version of TSplus then license activation is very easy:

- Open TSplus AdminTool
- Click on the "License" tab
- Click on the "Activate your license" button
- Enter your Activation Key: **6BAP-**

Legacy License File

If you are using a legacy version of TSplus then you will need a license file to activate your product.

Please only do this for:

- TSplus version 12 or lower
- TSplus Long Term Support (LTS) 12
- TSplus Long Term Support (LTS) 11

Offline Activation

If the server does not have access to internet when activating, an offline activation process will start.

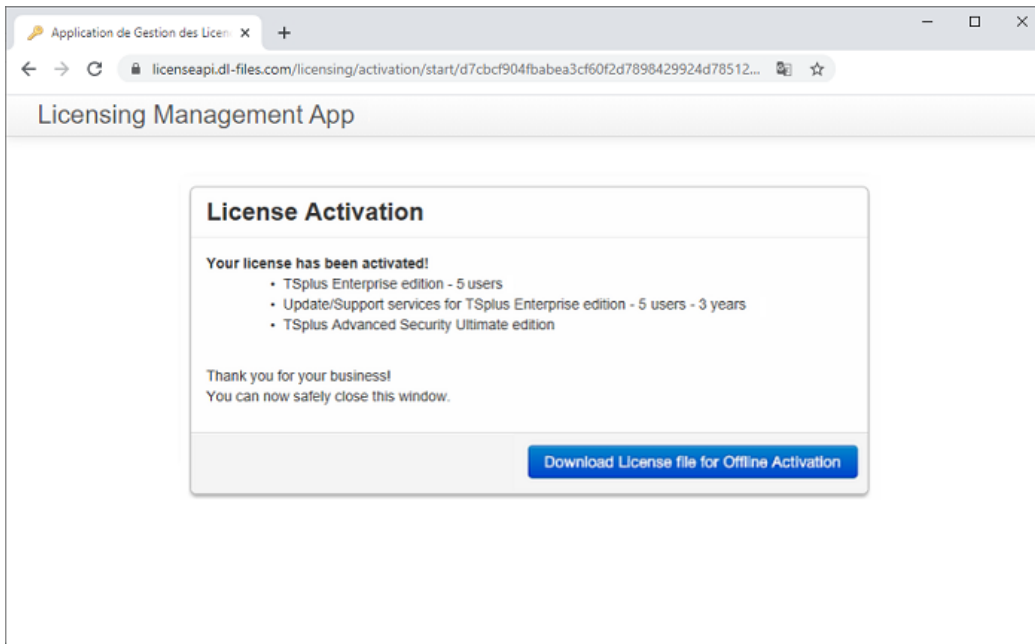

It will display a quite long URL address. Copy this URL on an internet-connected computer browser and access it in order to retrieve a license file:

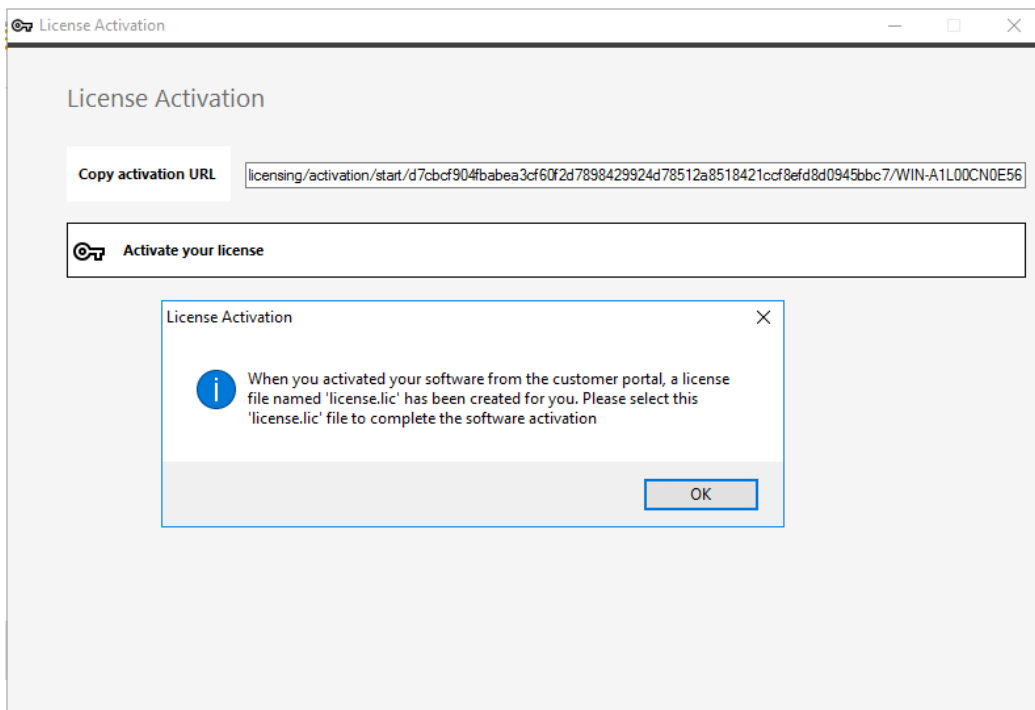

Enter your Activation Key:

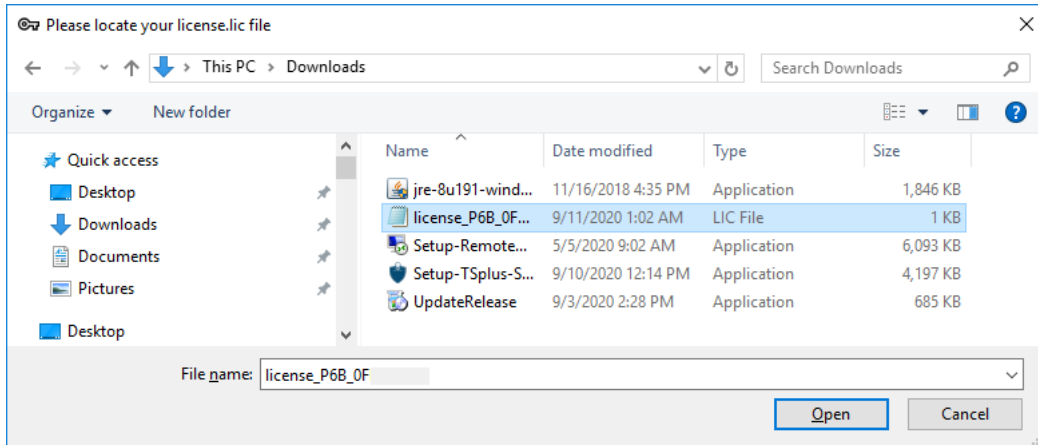

Your license is then validated. Download the license file by clicking on the corresponding button:

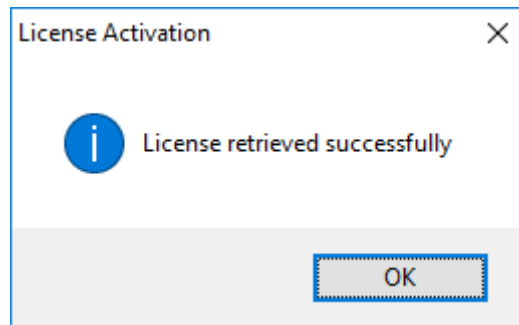

This license file must then be copied back to the server in order to finish the offline activation process;

A message will confirm that your license was retrieved successfully:

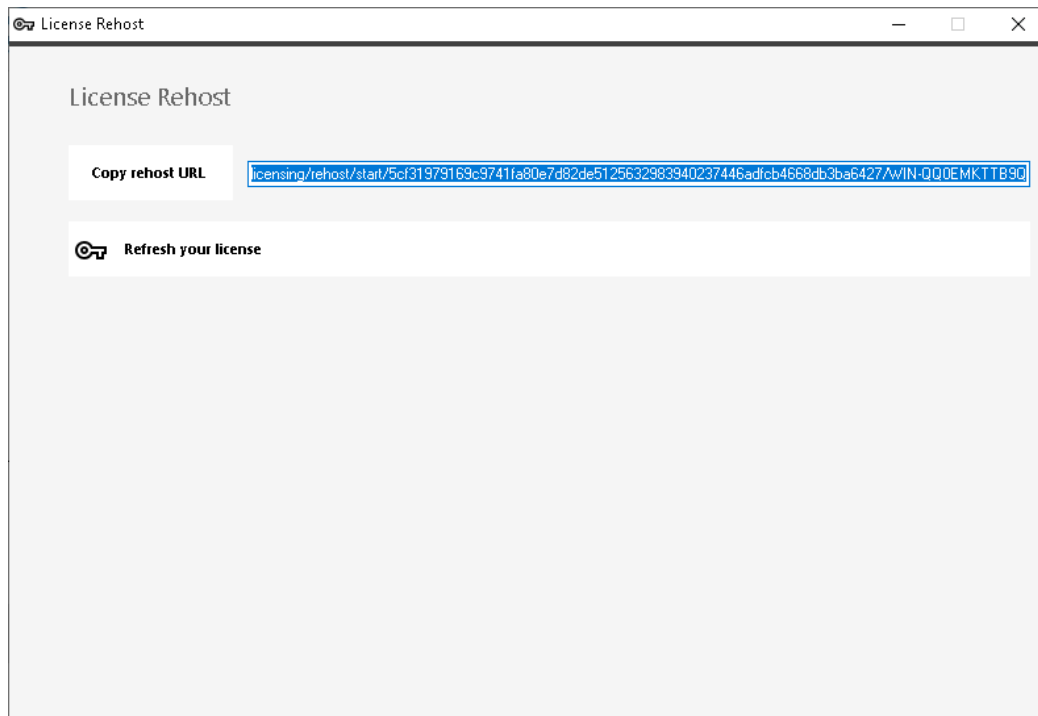

You will then have to select the corresponding licenses / support to activate and a message confirming that all your products/support are now activated.

Rehost

Offline Activation can also be done for rehosting licenses.

When the server does not have Internet access, the 'rehost an existing License' button will present the offline rehost page:

The process is the same as Offline Activation.
