

Server Concurrent Sessions Report

This report is available by clicking on **Servers > Reports**, then on **Concurrent sessions per hour** in the left menu.

The screenshot displays the TS PLUS SERVER MONITORING web application. The top navigation bar includes links for Home, Servers, Reports (highlighted with a red box), Websites, Alerts, Management, and Settings. The left sidebar shows a tree view with 'Performances' expanded, and 'Concurrent sessions per hour' selected (also highlighted with a red box). The main content area shows the 'Concurrent Sessions (Hourly)' report for server 'ServerMonitoring.PROD1.TEST11'. The report includes a table with columns for Date, PROD1, ServerMonitoring, and Grand Total, showing data for various time slots from 22/2/2022 10:00:00 AM to 27/2/2022 5:00:00 PM. The status bar at the bottom indicates 'Version: 5.0.2.3' and 'Valid Permanent License (10 Users)'.

The **Server Concurrent sessions Report** displays the number of concurrent sessions for the specified server(s) and period of time.

The data can be filtered by server name and date range.
