Assigning Applications to Users or Groups

Overview

Once you have <u>published some applications</u>, you can publish them to one or more users and/or groups. To do so, double-click on the application you wish to assign or click on the application, then on the "Assign Application" tile:

~		Remote Acce							
ጉ	HOME	+ Add Applicatio	on 🧪 Ec	dit Application	× Remo	ve Application	$\langle \rangle$	2, Assign Applicati	on
	APPLICATIONS						Select an Applicat	ion to Edit or Assign users/g	groups
	Publish	Desktop, Taskbar, I	Floating Panel and A	pplication Panel –	-	2			
	Users	Microsoft TS Remote Desktop	iplus Remote Floa Taskbar	tingPanel Appl	ication Deskto	op folder

How to Assign an Application to a user (or a group)

You can either assign an application for all authenticated users or to specified users and groups. If you wish to assign an application to a specific user or group, just click on "Add", then enter the name of the user or group you wish to assign the application: On this example, Foxit will be assigned to the Remote Desktop Users Group. Click on 'Ok":

							-	
ሰ	HOME	+ Add Application	Edit Application	× Remove Application	<	>	🤶 Assign	Application
	APPLICATIONS				Select an A	Applicatio	on to Edit or As	sign users/groups to
	Publish		Panel and Application Panel					
	Users	Microsoft TSplus Re	mote FloatingPanel Appli	ation Deskton folder				
∌	PRINTER	Remote Desktop Taskba		nel 🦉 Foxit User Assi	- 1997 (11 - 1997) 		-	_ ×
		Published Applications		Select which users a application:		s will be i	able to see an	id run this
C	WEB	Notepad Foxit	OpenOffice	 All authenticated Specified users a 				
b	FARM	Hotepita Post	openomice	Select Users or Groups)
2	SESSIONS			Select this object type:				
-81				Users or Groups				Object Types
6	SYSTEM TOOLS			From this location:				
				DESKTOP-SCVIIVH				Locations
ξĝ	ADVANCED			Enter the object names to select (ex	amples):			-
	ADD-ONS			Remote Desktop Users				Check Names
	ADD ONE							

Then on Save:

🔮 Foxit User Assign	ment	<u></u> 0		\times
Select which users and application:	d groups will be able to s	ee and r	un this	
All authenticated u	sers			
Specified users and	i groups			
Users and Groups				
DESKTOP-SCVIIVH\Re	mote Desktop Users			
Add	Remove			
		-		_
	Save		Cancel	

Manage applications per Users/Groups in bulk

The Applications - Users submenu allows you to see which applications are assigned per user or per group, by clicking on the "Select a User/Group" tile, then entering its name:

18 (5	plus - Administration Con	Remote Access Manageme	nt Console	
	HOME	2 Select a User/Group		
	APPLICATIONS	Select a user/group to display and change appli Desktop, Taskbar, Floating Panel and App		
	Publish	Microsoft Remote Desktop	Select User or Group	×
	Users	TSplus Remote Taskbar	Select this object type:	
æ	PRINTER	Application Panel	User or Group	Object Types
3	PRINTER	🔲 📁 Desktop folder	From this location:	
Ð	WEB	Published Applications	DESKTOP-SCVIIVH	Locations
		🗌 🚰 Foxit	Enter the object name to select (examples):	
b	FARM	🗌 🤤 OpenOffice	Front Office	Check Names
2	SESSIONS		Advanced	OK Cancel
R	SYSTEM TOOLS		, Auvariueu	Caricer
ŝ	ADVANCED			
3	ADD-ONS			
_	LICENSE			

On this example, you can see that the Microsoft Remote Dekstop, Notepad, Foxit and OpenOffice where all assigned to the group "Front Office":

TI TS	Splus - Administration Conso	ole - Malania	-	×
	TSPLUS	Remote Access Mana	gement Console	
ŵ	HOME	Select a User/Group	Applications assigned to Group DESKTOP-SCVIIVH\Front Office	
	APPLICATIONS	Select a user/group to display and che	ange applications assigned to it	
	Publish	Desktop, Taskbar, Floating Pane	l and Application Panel	
	Users	TSplus Remote Taskbar

ది	ADD-ONS			
©7	LICENSE			

Important remarks when using TSplus Seamless Client

With the TSplus Seamless Client, the users will not display the Microsoft Remote Desktop windows. The applications can be found on the local desktop as if they were native local applications. Users will only see the applications assigned by the administrator.

- If a user has the right to use the default Microsoft Remote Desktop, the Seamless Client will display a background color to avoid having both the Remote and the Local Desktop icons piled on the screen.
- The Seamless Client session is held open only when an application is running and being pushed through to the local client.
 - If no application has been assigned to this user, TSplus will automatically use the TSplus Taskbar.
- If a user has specific applications assigned, they will seamlessly see these applications when the session is opened. When the last application is closed the session ends.

Rules for Microsoft Remote Desktop, TSplus Remote Taskbar, Floating Panel and Application Panel

- You can customize your user's work environment by assigning one application out of these four: Microsoft Remote Desktop, TSplus Remote TaskBar, Floating Panel and Application Panel.
- If no application is assigned to one user, he will see the Microsoft Remote Desktop which will display the Desktop folder shortcuts.
- If one user has several allocations plus the Microsoft Remote Desktop, he will see a remote desktop.
- If a user has several applications plus the TSplus TaskBar, he will see the TaskBar displaying his Desktop folder' shortcuts.

For more information on the Remote Taskbar, Floating and Application Panels, see these documentations: <u>Remote</u> <u>Taskbar</u>, <u>Floating and Application Panels</u>

Running scripts/programs on session opening

- If you want to start a script when the session opens, you must name it LOGON.BAT or LOGON.CMD and copy this script:
 - In the Application Data folder of All Users if this script applies to all users,
 - $\circ\,$ In the Application Data of the user if this script applies to this user.
- If you want to start a script on the client side when a session is opening, you just have to name a program STARTUP.EXE and to copy it at the home drive of the user PC (C:\startup.exe).
- If you want a program to be started as a service when the TSplus server reboots you have to name this program STARTUP.EXE and copy it in the folder: C:\Program Files\TSplus\UserDesktop\Files\.

See this video on how to Assign Applications.
